Want Meetings Of Selectmen Open To Public

Voters at the town meeting in March will be called upon to decide whether the selectmen will continue to have their meetings in closed sessions or open them to the public.

This will be brought before the voters in a special article on petition of Raymond LaRosa and others to see if the town will vote to require the board, when sitting as selectmen, to hold such sittings open to the public.

The board of selectmen is also the board of public welfare and the board of assessors. When they open their meetings and people are waiting to be heard they call them into the meeting in turn, regardless of whether the matter is one for the selectmen, the board of public welfare, or the assessors, Roy E. Hardy, chairman, explained.

They spend the greater part of their time as assessors and often shift from one board to another during the course of their meetings.

A plan to increase the school committee from five members to nine will come up for action at the next town meeting on petition of Helen E. Jolliffe and other residents of Shawsheen Village.

The plan as outlined in Article 41 calls for the election of three members instead of one in the 1954 election and three members each in 1955 and 1956.

It was only a few years ago that an article was passed at the town meeting to reduce the school committee from a board of nine members to five.

Article 40 of the town warrant is to see if the town will authorize the appointment of a school housing planning committee to investigate school conditions, formulate long-range building plans, and appropriate \$1000 for the committee's work.

Article 42 is to see if the town will name the new West elementary school the "Thomas Eldred Carter Elementary school" in honor of the late Lt. Thomas E. Carter, World War I veteran, killed in action Nov. 4, 1918, in France.

Special Articles Call For \$197,600

Special articles in the 1953 town warrant which require funds to be raised by taxation total approximately \$197,600. This sum does not include the proposed wage increase for town employees. Last year the special articles adopted at the town meeting contained appropriations of \$80,700 to be raised by taxation.

Several Contests In Town Election

Voters at the town election next Mar. 2 will have the following contests to decide:

A three-cornered race for selectman and assessor:

A two-man contest for the board of public works;

Another two-man contest for tree warden, and

A seven-man scramble for three offices as constable.

There will be no contest for the school committee where Atty. Anna M. Greeley and Mrs. Dorothy T. Partridge, whose terms expire this year, are unopposed for re-election. Thaxter Eaton, town treasurer, is also unopposed for another term.

For the office of selectman and assessor J. Everett Collins, whose term expires this year, is a candidate for re-election. He will be

Special Article To Come Up At Town Meeting

A general wage increase not to exceed \$5 a week for all full-time employees of the town except the school department is proposed in an article to be voted on at the next town meeting.

Sponsored by the board of selectmen the article provides that funds to meet the increase be included in the departmental budgets to be put into effect next Apr. 1.

Included in the warrant is another article on petition of Oliver Pike and others to see if the town will vote to increase the regular weekly wage of all the full-time employees of the board of public works by 20 percent.

The last wage increase granted town employees was the result of recommendations made by a survey committee on wages and salaries, which became effective Apr. 1, 1951. The adjustments were made on the then basic wages, assignments of employees and general working conditions.

On that committee were Emil J. Schulze, William E. Titcomb and Charles W. Arnold.

The town warrant, which was closed last Friday afternoon, contains 67 special articles. Last year it was 46.

Some of the other articles included are to see if the town will vote for the following:

\$10,000 for land near the center of the town for parking purposes;
\$4000 for a traffic control booth in the square;

What Our Readers Say —

School Population Jan. 21, 1953

Editor of the Townsman:

With reference to Mr. Valz's letter on school enrollment surveys as published in the Townsman Jan. 15, while sympathetic to his attitude generally, I think fairness both to the school committee and the school building committee requires mention that at meetings called to discuss the school building program, the chairmen of both committees pointed out:

1) That town population as well as the birth rate and school enrollment had already increased faster than the earlier survey indicated.

2) That the two schools planned at that time, far from being a long-term answer, were only a beginning, and that further construction would undoubtedly be necessary within a five-year period, with probable building

away from the central area.

While no survey can be completely accurate, as any projection of future population increase must be based in part at least on unknown factors, the proposal to have the assessors take note of the ages and number of children below school age would at least help to indicate how the trend is going, at little or no expense to the town, and thus would appear to justify itself.

Yours very truly,
William N. Perry,

Holt Road,
Andover, Mass.

School Enrollment Topic Of Discussion

Problems of the school department caused by the rapid increase in the school enrollment were the subject of a panel discussion of parents, teachers and students in the Memorial auditorium Wednesday evening, Jan. 21.

Among the speakers were Supt. Kenneth L. Sherman, Headmaster Harold Howe 2nd., Shirley Murray, high school student, Raymond Paulino, junior high school student, Mrs. Harold Wennik, Colin Kerr, and Mrs. Dorothy Partridge of the school committee. Randolph Perry was moderator.

Supt. Sherman said that the school population has more than doubled in the past 10 years and the town will soon have a school enrollment of 3500, more than present facilities can cope with.

It's about got to the point where a conservative is anybody who wants you to keep your hand out of his pocket.

What nature can do with a little wet snow and a northeast wind is clearly illustrated by this winter scene after last week's light fall of driving snow that clung to trees and shrubbery. Only about half an inch of snow fell in this storm but it made many beautiful camera studies in the morning hours. This photo was taken at Morton street just off Whittier. The snow on the ground was left by the 16-inch storm earlier in the month.

The Rising Tide

Essex county can get a much larger share of tourist trade if it goes after it.

And that is just what Essex county is going to do. Through its board of trade it has embarked upon an aggressive publicity campaign to sell the recreational and historical features of this area to tourists from other parts of the United States and Canada.

The program for this year outlined at the recent meeting of the Andover Board of Trade by Paul Greeley, secretary of the Salem Chamber of Commerce, is simple and direct. Besides a pictorial map of the county which will be placed in hundreds of tourist agencies across the country, and a colorful exhibit at the New York Sportsmen's show in February, a selective advertising campaign will be undertaken.

This advertising will be based upon information obtained from various tourist information booths.

As explained by Mr. Greeley, there are three such booths open in Salem during the summer and they serve about 3000 persons a week. Attendants are required to note the first question asked by a tourist and the place that he comes from.

With this information the chamber learns what tourists want to see in a particular area and what parts of the United States and Canada they draw from.

With these facts there is no guesswork involved and the principal attractions of a community are definitely determined by the number of inquiries received about them.

Tourists bring new wealth to a community. If Essex county can attract a million people a year a certain percentage of them will come to Andover. Consequently, they will bring new money into this area to be spent for gasoline, food, lodgings and other items.

As Mr. Greeley pointed out, "The rising tide lifts all the boats," and the increased business received by merchants and dealers by such trade would serve to increase the wealth and prosperity of the whole community.

The Andover Board of Trade is going to participate in this county program and as part of its activities for this year is contemplating the erection of an information booth in the square.

As worked out in other places the information booth can be operated to the advantage of the town and it is felt that the town will cooperate with the board in seeing that such an information center is established.

Down the Years with The Townsman

50 Years Ago — January 1903

Do you premeditate the pleasure of taking your best girl on a sleigh ride, a carriage or perhaps a spin in your "auto." If so, by all means keep her warm, says one of our ads which advises readers to patronize its great markdown sale of lap robes. "Its cheaper than staying at home burning coal."

Another bad coasting accident took place at Carter's hill last Saturday when a double-runner collided with a tree. Henry Allicon lost a finger and a boy named Eldridge was injured internally. A sharp curve at the foot of the hill is the cause of the accidents there.

The slippery going yesterday cost Milo H. Gould a horse. He was going to Lawrence with a load of boards and a four-horse hitch when on the sharp grade beyond the railroad bridge on Main street the heavy wagon began to slue. As the horses were forced up on the sidewalk a pole-horse fell and the heavy wagon ran over him crushing his leg. It was necessary to destroy the animal.

Although Andover is among the more conservative communities in town expenses there seems to be no way to avoid a material increase in the tax rate, especially for the two larger demands which are for more room and better accommodations at the Punchard and John Dove buildings.

The 192nd annual meeting of the South church was held Friday night. The clerk's report showed a church membership of 365. N. Edward Gutterton was elected clerk, John Alden treasurer, Frank T. Carleton deacon, and David Shaw auditor.

The parish of the Free church voted Monday to purchase the estate on Elm street known as the Kimball property. It has a frontage of about 163 feet from the Joseph F. Cole land to the Burr property.

The ladder truck had lots of trouble getting down Main street beyond the railroad bridge in response to a still alarm Thursday. At times the truck was almost ahead of the horses, and at other times it swung completely across the street. It hit several poles, smashed ladders, pitched off a few men and had narrow escapes from a smash-up with other vehicles. The fire in an over-heated oven was extinguished with sand.

25 Years Ago — January 1928

The Free church annual supper was held with an attendance of 200 members despite the severe wind storm. The annual report of the clerk was read by the Rev. F. A. Wilson. Membership was 803. Milo H. Gould, who joined the church in 1874, was the oldest member present.

The Andover boy scouts have been assigned fire alarm box 3. This will be sounded in case anybody gets lost, summoning the scouts to assemble at the fire station.

What's "in the works" at G.E.

We Covered a Lot of Ground in '52!

HIGHLIGHTS OF G-E PROGRESS

Wages — Local G-E Employees earned \$109,522,000 last year. This figure includes overtime and night shift bonuses. To the Community this meant that most of these dollars were funneled into local retail and service businesses. Thus the G-E payroll stimulated Community business in a volume several times greater than the G-E payroll itself.

Taxes, Community Contributions — In 1952 state and local taxes attributable to G. E.'s Lynn and Everett Works totalled \$3,079,462. Joint charity contributions by G-E Employees and the Company in this area came to \$489,388. In addition, hundreds of local G-E Employees gave generously of their time and effort to Community organizations like Junior Achievement, Community Fund, Red Cross, Chamber of Commerce, Scouts, hospital and church groups.

Safety Program — Last year G. E.'s River Works and West Lynn Works improved an already good safety record. In 1952 the West Lynn Works received the Award of Merit in a statewide industrial safety contest sponsored by the Massachusetts Safety Council. At the River Works, lost time due to accidents was reduced 10%. The severity of accidents was reduced 66⅔%. It is actually six times safer at G. E. than at home.

Suggestion Awards — The largest single suggestion award ever given by G. E. at Lynn, \$3,115, was won by David Callahan, Lynn, for his idea to change the method of forging the wheel and shaft for jet engines. Last year G. E. paid out more money locally than ever before for ideas submitted by employees — a grand total of \$87,485.

Stock Bonus Plan — To date 10,385 local G-E people have signed up for the Company Stock Bonus Plan. Last year local employees saved approximately \$3,151,331 in U. S. Defense Bonds. After holding the Bonds five years, they'll collect a bonus of regular G-E stock equal to 15% of their annual Bond investments. G. E. is prepared to contribute more than \$4,500,000 worth of stock each year.

Employee Benefits — During 1952, the total number of local G-E Employees who retired under the Pension Plan was 187. Many were "old-timers" who'd been with the Company thirty to forty years. G. E., through its Insurance Plan, paid out more than \$1,060,084 locally. This amount covered sickness and accident insurance, life and accidental death insurance, hospital and surgical insurance and maternity benefits.

Apprentice Training — Enrollment in G. E.'s on-the-job Apprentice Course reached 200 in 1952. This four-year course teaches young men from Lynn and surrounding towns how to become skilled machinists, tool and die makers, foundry moulders, draftsmen or construction and maintenance specialists. They earn while they learn. Young men accepted as apprentices start at \$53.90 a week.

G. E. HAS A BIG STAKE IN THIS AREA!

Today approximately 24,400 local people are G-E Employees. About one family in every eight within a twelve mile radius of Lynn has one or more members working at G. E. General Electric also means more than good jobs for local people. It means a Company which takes an especially active part in the life of the Community. We are proud to continue this close relationship.

Burglarize Home In Shawsheen

The home of Atty. and Mrs. Joseph F. Bacigalupo at 27 William st., was robbed of \$1000 worth of silverware and clothing on Jan. 20 while the owners were attending the inaugural at Washington.

A man captured two days later in an attempted break in Milton was one of the thieves, police reported. Part of the loot was found in his possession and recovered. He would not name his companion whom police believe has part of the stolen property.

Police were notified of the break Tuesday by a neighbor who noticed the front door open and knew the occupants of the house were away.

Atty. Bacigalupo on his return Friday said the thieves had taken a set of silver for 12, two storm coats, a man's overcoat, two suits, about a dozen shirts, three watches, a wedding ring and a woman's fountain pen.

It was the charm on one of the watches, inscribed with the owner's name, which connected the Milton prisoner with the local theft.

Police identified him as Arthur L. Polley, 46, of Tremont st., Boston, who has a long police record of breaks. He had been picked up on charges of an attempted break, assault and battery with a dangerous weapon, and having burglarious tools in his possession. Arraigned in Milton court he was held in \$10,000 bail for the grand jury.

When arrested, police said, he was wearing the watch with the tell-tale charm attached. Sgt. William R. Hickey and Officer Robert Deyermund went to Milton to interview the prisoner. They reported he admitted having made the Andover break. Much of the stolen property was recovered in a room on Tremont street, Boston, occupied by Polley. It was identified by the owner and brought back. A warrant charging him with the break here was sent to the Dedham jail to be served when he is released.

ON SABOTAGE TRAIN

Dr. and Mrs. Leslie S. Jolliffe, and Dr. and Mrs. Harry V. Byrne were among a group of Greater Lawrence doctors and their wives who were aboard the Boston-to-New York train of the New Haven road Friday which was involved in a series of tampering with air brakes. The local party was in a special car and it was this one that officials found was running with the air-brake mechanism out of adjustment. The local party comprised physicians who hold membership in the Aesculapian club and was bound for a weekend holiday in New York.

DRAWN AS JUROR

John A. Polgreen, 36 Whittier st., was drawn by the selectmen as a juror for the session of superior civil court opening at Salem Feb. 2.

\$5 WAGE INCREASE IS PROPOSED

\$12,000 for a new snow loader. The present one is seven years old and the BPW would like to keep the sand boom on it all the time to be used in loading sand, much of which is done in winter time;

\$9700 plus the present 1946 street sweeping machine for a new street sweeper;

\$4000 for the purpose of widening a section of Whittier street near the schools;

\$80,000 for a sewerage system in Ballardvale;

A sum not exceeding 1/200 percent of the assessed valuation for the purposes of advertising its resources and attractions, or provide \$900 to be expended by the Andover Board of Trade for Christmas lighting and participating in the publicity program of the Essex County Board of Trade.

The warrant also contains an article to see if the town will vote to make the tree and moth department into divisions of the department of public works and to instruct the selectmen to make the necessary steps for the consolidation so that final action may be taken at the 1954 town meeting.

Article 60 calls for the appointment of a committee to study the advisability of flouridation of the water supply.

Seeks Permit For Apartment House

A hearing was held by the board of appeals last week on the petition of Fred E. Cheever to change the residence of the late H. Bradford Lewis on Hidden road to an apartment house.

Several remonstrants voiced objection to the proposal and on suggestion of James H. Eastham, chairman of the board, the matter was postponed until Feb. 3 when the board will meet again to consider the petition.

Atty. Ronald H. Sherman represented the petitioner. He said the plan calls for the estate to be converted into a nine-apartment building of three or four rooms each. The rental would be about \$100 a month. The building is in excellent condition and no exterior changes would be necessary.

Objectors felt that an apartment house would decrease the value of surrounding property. The residents of that section purchased their homes with the impression that it would remain a single residence area.

The two weeks' postponement will allow Mr. Cheever additional time to present his proposal in more detail and also provide abutments further time to present their case more clearly.

Free Church Holds Annual Meeting

The annual meeting of the Free Christian church was held Jan. 21 in the parish house. Routine business was transacted.

The following were elected to serve during 1953: Frederick Fitzgerald, moderator; Mrs. Annie Angus, clerk; Miss Judith Napier, assistant clerk; Robert Domingue, treasurer; Lewis Paine, assistant treasurer; and Carlton Shulze, auditor.

Thomas Gorrie was elected deacon emeritus in recognition of service since 1932. Norman MacLeish,

Everett Gorrie and Robert Hamilton, deacon for three years. Mrs. Alexander MacKenzie, deaconess for four years. James MacKenzie, trustee for four years.

The standing committee consists of Mrs. Robert Domingue, Archie Gunn and Mrs. Archie Gunn. The nominating committee: David Reynolds, Alice Purdy, Mrs. Arthur Jowett and Everett Gorrie.

VISITING NURSE DRIVE

Directors of the Visiting Nurse Association of Andover, Inc., have decided to start the 1953 campaign for funds early in February. This year the house-to-house canvass will be replaced by a request for renewals of 1952 memberships

because of other house-to-house drives going on throughout the year.
